

COVID-19 Protocols

Vaccine passes are required

Passes are checked once only, and the expiry date noted.

Masks are required

Spare masks are available outside the shrine room. Please go outside and distance yourself from others when you need to remove your mask, including for eating or drinking.

Scan the QR code

This helps facilitate contact tracing, though we also have a record of attendance.

Use hand sanitizer

Sanitizer is available outside the shrine room and library, as well as in the bathroom. Soap is available in the bathroom.

Leave doors and windows open and fans on

Ventilation is important given the confined spaces we have. Blankets are available in the shrine room cupboard.

Monitor for symptoms

Please stay away from the Dharma Centre if you have any relevant symptoms, or if you are classed as a close contact and are required to self-isolate.

Socials cancelled

Group socials in the library requiring mask removal (e.g. for eating and drinking) are cancelled.

Library usage

Please limit numbers in the library to a maximum of 7 and wear a mask. You can make drinks for consumption elsewhere.

A positive test will put everyone at the same practice/s in self-isolation, in accordance with the rules for close contacts. Out of compassion, please respect these protocols and kindly remind others of them when necessary. These protocols will be reviewed regularly and updated as necessary.
